

**PAGE 1 OF 4**

**VIEW SOUTH**

- 1" EMT FRAME
- ALL TEE CONNECTORS (except both ends of 2 horizontal angled braces)
- 12 FOOT SQUARE COOLAROO SAIL SHADE
- VERTICAL TUBES ATTACHED TO HEADER & FOOTER STUDS IN DECK WALLS.
- (note: deck walls are built with pressure-treated 2x4's, with vertical 4x4 posts, all weatherproofed and sheathed in Smart Siding and trimmed with Azek pvc board.)

**DECK, WALKWAY TO  
HOUSE AND EXTERIOR  
WALLS WERE BUILT  
DURING THE SUMMER OF  
2008.**

1. 18' LONG MAIN HORIZONTAL 1" TUBE CONTAINS 5', 3/4" INTERNAL TUBE CENTERED ON SPLICE JOINT.
2. STANDARD EMT CONNECTOR SET SCREWS ARE REMOVED AND DRILLED THROUGH BOTH OUTER 1" TUBE AND INNER 3/4" TUBE. HOLES WERE RETAPPED FOR 5mm CAP SCREWS THROUGH BOTH TUBES TO FORM A VERY SECURE AND STRONG SPLICE JOINT.
3. THE VERTICAL CENTER POLE REMOVES THE "BOUNCE" FROM THE LONG HORIZONTAL MAIN TUBE.
