2	September 2021 CA Edition		302147001	Demographic history detail	Gender	observable entity	Gender			Gender encompasses gender identity and lived gender (i.e., gender expression) as man, woman, both, neither or anywhere along the gender spectrum, gender norms (expected behaviours and attitudes for specific genders) and gender relations (power relations between genders). The Canadian Human Rights Act was amended in June 2017 to include gender identity and gender expression as prohibited grounds for discrimination. (CIHI, 2018)	This is a parent concept for more granular gender concepts that does not exist in the terminology.		https://www.cihi.ca/sites/default/files/document/defining-stratifiers-measuring-health-inequalities-2018-en-web.pdf
3	September 2021 CA Edition		Same Batch	Gender	Gender identity	observable entity	Gender identity			Gender identity is an individual's personal sense of being a male gender (man, boy), female gender (woman, girl), another gender, or no gender, that is not necessarily visible to others and must be declared by the person.	Gender identity information has been integrated into national data requirements in Canada (CIHI CRDM) and is best practice for patient centred care (Fenway, Trans Care BC, Rainbow Health Ontario), and is not currently in the terminology.	Please use definition as a description.	Davison et al. 2021. Culturally Competent Gender, Sex, and Sexual Orientation Information Practices and Electronic Health Records: Rapid Review (nih.gov)
4	September 2021 CA Edition		Same Batch	Gender Identity	Gender identity of patient	observable entity	Patient gender identity			A patient's personal sense of being a male gender (man, boy), female gender (woman, girl), another gender, or no gender, that is not necessarily visible to others and must be declared by them.	A patient's gender identity is essential for providing affirmative care, and it is not currently available in SNOMED CT.	Please use definition as a description.
