## Love Your Outdoor Space Refresh for Relaxation and Fun!

As warmer weather approaches, now is the time to revitalize your home's exterior and outdoor spaces to create an inviting entertainment area and a tranquil personal sanctuary to enjoy throughout the season.

### Exterior Painting - Boost Curb Appeal & Protect Your Home

A fresh exterior paint job instantly revitalizes your home's appearance, significantly boosting its curb appeal. Beyond aesthetics, this protective layer shields your home from the elements, preventing costly damage. Springtime offers ideal temperatures for painting, ensuring proper adhesion and a beautiful, long-lasting finish.

### Enhance Your Front Porch

Imagine transforming your porch with a fresh coat of paint, instantly creating a more inviting entrance. Then, picture adding lush plants, charming decor, and thoughtful landscaping to turn that space into your own personal outdoor sanctuary where you can grab a book, put on some music and let the relaxation begin.

### Get Your Deck Ready for Summer

A well-maintained deck extends your living space, adding value and enjoyment to your home. Refreshing it now ensures a perfect setting for summer gatherings and space for your own relaxing moments. Think about complementary elements like outdoor rugs or comfortable seating that can further enhance the area after the painting work is complete.

### Peace of Mind With Our Custom Project Plans

You only have to tell your story once. We will listen and create a comprehensive project plan for your unique needs. Daily progress updates will keep you informed throughout your project. Rest assured that we are expert painters who deliver results above your expectations.

### We Sweat The Small Stuff So You Don't Have To

## Want To Know More? Read Our FAQs!

**WHAT PROCESS DO YOU USE TO PREPARE SURFACES TO MAKE SURE THE PAINT "STICKS?"**

The first step in ensuring paint adhesion is to thoroughly understand the myriad of coatings available and to properly match the coating to the surface. Beyond that, we make certain to remove loose and flaking paint from all surfaces. On the exterior of a home, this is done by pressure washing or manually scraping. Sometimes, surfaces have to be scuffed up, abraded, profiled, or even primed to guarantee adhesion. **That's why we take our time where it counts – in the preparation.**

## We Take Pride In Our Work

"Chris Gorlitz was our CertaPro sales associate who provided a very detailed and competitive bid. Chris was very professional and willing to answer all of our questions. **We chose CertaPro not only due to it being the lowest bid, but also because they donate a portion of every job to three excellent charities: Love Fosters Hope, Breakthrough T1D, and Dallas Hearing Foundation.** The crew that Chris sent to the house was excellent, easy to communicate with, very quick to respond to any concerns and did an excellent job on our exterior painting project! We will be painting the interior soon and feel confident that CertaPro will do an excellent job!"
