

Features	Code	Purpose
Anonymous Call Rejection	Enable: *77 Disable: *87	Anonymous Call Rejection lets you stop calls from people who have withheld their number.
Automatic Callback	Enable: *66 Disable: *86	Automatic callback permits a user, when encountering a busy condition or other condition where the called individual is unavailable, to instruct the system to retain the called number and to establish the call when there is an available line or when the called number is no longer busy.
Automatic Recall	Enable: *69 Disable: *89	Allows a subscriber to automatically place a call to the last station that called the subscriber, when that station becomes idle.
Call Barring	Enable: *341 to *346 Disable: *351 to *356	Allows the subscriber to restrict outbound calling to specific numbers or dialing codes.
Call Forward	Enable: *72 Disable: *73	Allows a subscriber to redirect calls intended for their station (base station) to another station (remote station).
Call Forward Busy	Enable: *90 Disable: *91	Allows a subscriber to forward calls to another number when their line is busy.
Call Forward Fixed	Enable: *94 Disable: *95	Allows the customer's calls to be forwarded to the same fixed number.
Call Forward No Answer	Enable: *92 Disable: *93	Allows the customer to forward their calls to another number if the phone line is not answered.
Call Hold	*52	Allows the customer to place callers on hold.
Call Pickup	*11	Allows the subscriber to answer someone else's telephone call.
Call Trace	*57	Provides the recipient of an obscene, harassing, or threatening call the ability to request an auto-trace of the last call received.
Caller ID Blocking	Enable: *67 Disable: *68	Allows the subscriber to temporarily change the permanent public/private status indicator of his/her directory number (DN) and thus control its availability to the called party.
Calling Name & Number Delivery	Enable: *65 Disable: *85	Provides the subscriber with the directory number (DN) of the calling party during the ringing cycle.
Cancel Call Waiting	*70	Provides the subscriber the ability to disable the Call Waiting feature for the duration of a telephone call, such as during a short data transmission like a fax or modem call.
Directed Call Pickup	*12	Allows a customer to direct a call to a specific line within their home/business.
Do Not Disturb	Enable: *78 Disable: *79	Provides the subscriber the opportunity of having all calls intercepted by the CO switch whenever the line is programmed for Do Not Disturb. The calling party will receive a message indicating the station is in Do Not Disturb condition.
Last Caller ID Erasure	*320	This service allows the subscriber to erase the record of the last caller's number, including the date and time of the call, also clears the record of the last called number and the call lists
Off-Premise Extension	*58	Allows the customer to join an existing call on another line.
PIN Change	*319	
Priority Call	Enable: *61 Disable: *81	Allows the subscriber to have incoming calls from a limited number of calling parties identified using distinctive alerting treatment.
Regular Reminder Calls	*314 to *317	Allows the subscriber to have their TekTalk service call them back to serve as a reminder or wake-up call. Recurring reminders.
Reminder Calls	*310 to *313	Allows the subscriber to have their TekTalk service call them back to serve as a reminder or wake-up call. One time reminders.
Selective Call Acceptance	Enable: *64 Disable: *84	Selective Call Acceptance allows you to receive only calls that meet your predefined criteria.
Selective Call Forwarding	Enable: *63 Disable: *83	Allows the subscriber to have incoming calls from a limited number of calling parties forwarded to a prespecified remote station.
Selective Call Rejection	*60 or *80	The Selective Call Rejection feature allows you to create a list of up to 50 phone numbers that will always have their calls rejected (a user-defined "blacklist"). These incoming calls on the list are disconnected. The Selective Call Rejection feature is included in all TekTalk packages at no additional cost.
Speed Dial 30	*75	Allows a subscriber to assign his/her own speed calling codes directly and immediately from his/her own telephone by dialing a change speed calling list access code, an abbreviated code, and a new telephone number.
Speed Dial 8	*74	Allows a subscriber to assign his/her own speed calling codes directly and immediately from his/her own telephone by dialing a change speed calling list access code, an abbreviated code, and a new telephone number.
Voicemail	*98	A computer based system that allows users and subscribers to exchange personal voice messages; to select and deliver voice information; and to process transactions relating to individuals, organizations, products and services, using an ordinary telephone.
