Add Pharmacy Intern to HealthcareProviderRoleType Subset

- CVC has received a request from Ontario for a new code for “Pharmacy Intern”. According to the Ontario College of Pharmacists, "The Drug and Pharmacies Regulation Act permits a student/intern to perform the authorized acts of compounding, dispensing, and selling of drugs in a pharmacy. In an accredited community pharmacy setting, a student/intern must be under the direct supervision of a pharmacist who is physically present.

HealthcareProviderRoleType Subset

- A code “PHINT” (Pharmacy Intern) will be added to HealthcareProviderRoleType and planned to be published later in May (20th May). This subset is an Extensional Subset that uses the SCPTYPE terminology.
- If you use this code for something else in your application or jurisdiction, and it causes a issue if implemented in the HealthcareProviderRoleType subset
- Contact: standards@infoway-inforoute.ca

Thank you!
