# Agenda and Notes

## **1. Welcome and Land Acknowledgement and Ground Rules**

Completed. See slide deck for details.

## **2. Ground rules for respectful dialogue**

Completed. See slide deck for details.

## **3. Purpose of Infoway Sex and Gender Working Group**

Completed. See slide deck for details.

## **4. Morgan Stirling – Preliminary Results: Improving Gender Diversity in Cancer Health Research**

Current context: US has changed the way they view / include trans and gender-diverse individuals. Trans and gender-diverse people are people. They exist. Visibility is impaired by stigma, is required to improve research, but is also associated with risks. It's not the job of transgender and gender-diverse people to change the system. People want to be involved, want to help the community, but it is incumbent on researchers to make it more inviting / led by diverse folks.

## **5. Schedule Review**

No meeting in December.

## **6. Adjournment**

Completed.
