

**BALLOT INSTRUCTIONS FOR THE
WITHDRAWAL OF HL7 VERSION 3
STANDARD: COMMON MESSAGE
ELEMENT TYPES, RELEASE 3
FOR THE SEPTEMBER 2022 BALLOT CYCLE**

August 12, 2022

Dear Voter,

Health Level Seven (HL7) invites you to take part in a Comment-only level ballot to withdraw the following HL7 Standard:

Withdrawal of HL7 Version 3 Standard: Common Message Element Types, Release 3 (WITHDRAW_V3_CMETR3_01_2022SEP)

Per ANSI rules, any ANS subject to periodic maintenance shall be revised, reaffirmed or withdrawn five years (5) after its designation as an ANS. HL7 is conducting this ballot in accordance with the HL7 Essential Requirements (HL7 ER) section 03.04.01 (Reaffirmation of an HL7 American National Standard), to allow those parties with an interest in the ANS to record their position on the decision to reaffirm, revise or withdraw this ANS.

For the purposes of this ballot the question being asked is as follows:

Should the standard be withdrawn as an American National Standard, reaffirmed as an ANS, or subject to revision and brought to ballot as a new version?

Accordingly, voters should lodge their votes as follows:

- **Affirmative** – Indicates support of withdrawal of the specification
- **Negative** – Indicates support of either reaffirming or revising the specification. If you support either of these actions, indicate your reasons in the comments accompanying your negative vote.

For details on obtaining a copy of the ANS under review, please refer to the Balloting Procedures section further down in this announcement.

Review Group Pool Signup

Pool sign up is closed.

Review Group Ballot Open/Close Dates

The ballot pool in this document will open and close for voting on the following dates:

Review Group Ballot Open Date: Friday, August 12, 2021

General Guidelines

The standard under consideration is available to HL7 members and non-members as a free download from the HL7 web site as part of the Version 3 Normative Edition 2017, linked to

https://www.hl7.org/implement/standards/product_brief.cfm?product_id=454

From this page select the download link under "Related Documents".

HL7 will conduct these ballots according to its procedure for electronic balloting.

Unique Ballot IDs: Each ballot document has a unique Ballot ID that can be found following its descriptive text. In addition, updated ballot comment spreadsheets will be available on the balloting website at the time the ballots open.
