- Beverly Knight, CHI
- Helen Xing, BCCDC
- Dennis Sharkey, BCCDC
- Gulshan Kudra, BCCDC
- May Canning, BCCDC
- Naureen Mukhi, BCCDC

Agenda

1.	Welcome <ul style="list-style-type: none">● Attendance● Regrets
2.	Walk-through of CVC v1.1.3-prerelease.46 <ul style="list-style-type: none">● Overview of changes (Cam)<ul style="list-style-type: none">○ Lori: codes in diff file seem to switch unspecified hepatitis (diff file, generics)○ Parking lot item: indicates this is something we should be consistent with both languages, come back and make the change for another release.● Process moving forward<ul style="list-style-type: none">○ QA process - technical piece that identifies the diffs, someone goes through and categorizes them○ Need to define what the key things are that need to be reviewed○ Lessons learned from Ontario: look at releases from the perspective of how it's implemented, decide what is relevant and look closely at this○ Action item: CVC team to prepare a high-level release summary and share with the group today for feedback. Determine date for when approval is needed to release new version.○ Going forward, releases will be accompanied by a high-level summary.
3.	Updates about CCDD (Beverly) <ul style="list-style-type: none">● Imms in the CCDD and the impact<ul style="list-style-type: none">○ Health Canada - will not include SNOMED.○ Discussion: reach out to stakeholders to communicate impacts?<ul style="list-style-type: none">■ Eg: Prescribelt work in BC - if they use CCDD, would not work with EMRs/pharmacies in BC (could get 2 sets of product codes from CVC and CCDD)○ Possible resolution: CANImmunize contains mapping, Infoway provides mapping file
4.	Preparing for a COVID-19 Vaccine Release <ul style="list-style-type: none">● What is needed to ensure we are ready?
5.	Working Group Updates
