

**Canada Health Infoway**

# **Sex and Gender Working Group**

Monthly (4<sup>th</sup> Tuesday) Zoom Meeting  
June 27, 2023 at 9am PT / 12pm ET

Karen Courtney RN, PhD, University of Victoria  
Francis Lau PhD, CTSS, University of Victoria  
Kelly Davison RN, CTSS, University of Victoria

# Agenda

1. Welcome and Land Acknowledgement
2. Ground rules for respectful dialogue
3. Purpose of Infoway Sex and Gender Working Group
4. Inge Soons – Overview: Sex & Gender Coding in The Netherlands
5. Co-Development and Analysis of Use Cases / Scenarios
6. Schedule Review
7. Adjournment

# Welcome and Acknowledgement

We respectfully acknowledge that the land on which we are hosting this meeting – the land that sustains us – includes the ancestral territories of many First Peoples. Canada Health Infoway recognizes the colonial injustices experienced by Indigenous Peoples, many of which continue today and continue to affect their health and well-being. I invite all attendees to reflect on the privilege they have of living, working and playing in the territory from which you are joining this call, and invite you to commit yourself with me to having an open heart and an open mind; to forging culturally safe spaces for and relationships with Indigenous Peoples including Two-Spirit people in Canadian healthcare; and in making a meaningful contribution to reconciliation through our shared work.

# Ground Rules for Respectful Dialogue

- Express disagreement with ideas not personalities
- Share airtime
- Stay on topic - connect to what others have said
- Understand & learn from each other
- We are all equal. Leave rank at the door
- Listen respectfully especially when you disagree. Acknowledge you have heard the others
- Look for common ground
- Identify & test assumptions

# Purpose

***The Sex and Gender Working Group meets on the fourth Tuesday of each month at 9am PT/12pm ET. Our next meeting is July 25, 2023.***

The purpose of this working group is to take action on modernizing GSSO information practices by:

- Examining the expanded definition, collection, use and sharing of sex-gender info in EHRs
- Discussing current research, practices, gaps and challenges
- Operationalizing the [Action Plan](#)

# Action Plan

1. ***Vision and Goal*** – “Envisage an equity- and SGM-oriented health system that embraces diversity and aligns with other SGM-related initiatives.”
2. ***Engagement and Partnerships*** – “Engage organizations and communities across Canada to modernize GSSO information practices in EHRs that support equity-oriented health care and meet SGM needs.”
3. ***GSSO Terminology Workstream*** – “Establish a precise, inclusive, appropriate, evolving and multi-level GSSO terminology...”
4. ***Enabling EHR Systems*** – “Adopt a common set of EHR functions...”
5. ***GSSO Policy/Practice Guidance*** – “Integrate and tailor GSSO data collection...”
6. ***Education and Training*** – “Educate and train health care staff to enhance their capacity to provide culturally competent and safe care...”
7. ***Central Hub for Coordination*** – “Establish a central hub to liaise, guide, assist and monitor the progress of this action plan over time.”

# SGWG Meeting Structure

- 1. *Introduction*** – ~5 minutes
- 2. *Guest Presentation w/ 10 Q+A*** – ~25 minutes
- 3. *SPCU Use Case and Guidance Co-development*** – ~30 minutes

# Case Exemplar(s) – With Gender Harmony

A 53 year old transgender woman presents to her family doctor with for their regular physical for insurance purposes (no acute concerns, hasn't been in three years b/c of pandemic). The MOA views their ID which lists Gender-F. Before seeing the patient, the physician reviews the patient chart. There is no surgical history. There is a medication history. Spironolactone is listed. Lab history includes hormone levels (estrogen) and PSA levels. During the assessment, the patient is asked if they are menopausal and when their last period was. Baseline CBC and TSH levels are ordered using reference ranges for 53 year old female. A mammogram and bone density scan are also ordered.

# Summary of Discussion

- ✓ Initial service interaction with MOA/Clerk
- ✓ Identity verification
- ✓ Clinical interactions
- ✓ Conflation of sex and gender
- ✓ Gender identity
- ✓ Environmental considerations
- ✓ Professional responsibilities

# Sex Parameter for Clinical Use

- Sex Parameter for Clinical Use (SPCU) - a parameter that provides guidance on how a recipient should apply settings or reference ranges that are derived from observable information such as an organ inventory, recent hormone lab tests, genetic testing, menstrual status, obstetric history, etc.
- This property is intended for use in clinical decision making and indicates that treatment or diagnostic tests should consider best practices associated with the relevant reference population.
- The standard [sexParameterForClinicalUse](https://www.hl7.org/fhir/patient.html) extension may be used to communicate this property. <https://www.hl7.org/fhir/patient.html>
- How could SPFU be used in this scenario?

# How could SPFU be used in this scenario?

# Schedule and Topics

Session	Infoway SGWG Meetings - 4 <sup>th</sup> Tuesday Each Month
Jan 24	<i>Karen Luyendyk</i> – Use Case Development
Feb 28	<i>Planning Session</i>
Mar 28	<i>Beverly Knight</i> – ISO Technical report on Sex and Gender in EHRs
Apr 25	<i>Dr. Murdoch Leeies</i> – Equity-relevant sociodemographic variable collection in emergency medicine
May 23	<i>Ingrid Handlovsky, PhD</i> – What does allyship mean in digital health?
Jun 27	<i>Inge Soons, Medical Terminology Advisor, Nictiz, The Hague, Netherlands</i> – GSSO Terminology in the Netherlands
Jul 25	TBA
Aug 22	<i>Hannah Galvin, SHIFT</i> – Privacy Standards, Informed Consent & Granular Data Segmentation
Sep 26	<i>Shannon O'Connor, CIHI</i> – Environmental Scan GSSO in Provinces and Territories, Discussion of Western Canadian findings
Oct 24	<i>Shannon O'Connor, CIHI</i> – Discussion of Central Canadian findings
Nov 28	<i>Shannon O'Connor, CIHI</i> – Discussion of Eastern Canadian findings
Dec 26	<i>No meeting</i>
