**John Wills**Re Profile Overview, <https://simplifier.net/guide/eReferralOntario/Overview>

I suggest we update the Intro to note that the type 3 Referral Submission pattern be called "Basic Referral", rather than "not preferred". While the EMR/Ocean/Caredove integration provides advanced functionality I believe the Basic pattern is what will be implemented for a number of upcoming integrations, and the Basic pattern may well be the preferred pattern for the pathway supported and/or capabilities of the parties involved. Note that this nomenclature is also consistent with the commentary in the use cases at <https://simplifier.net/guide/eReferralOntario/UseCases>

Re Profiles, "add-service-request"

What's the intention for

[https://simplifier.net/guide/eReferralOntario/XMessageAddServiceRequest ?](https://simplifier.net/guide/eReferralOntario/XMessageAddServiceRequest?)

Will the content be moved to

[https://simplifier.net/guide/eReferralOntario/MessagesCommands ?](https://simplifier.net/guide/eReferralOntario/MessagesCommands?)
