

MAKE YOUR OWN FANTASTIC FOX

Mr Fox is a rather brilliant friend and companion to everyone around him- that's what makes him so fantastic! Follow the instructions to make **your very own fantastic fox** to keep with you.

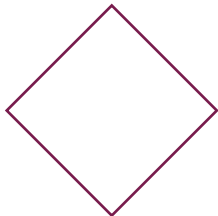

Don't forget to print this **single sided**, or you might cut out your instructions!

1

Colour in the square on the next page in orange. Then, carefully cut out the square.
Make sure you have an adult on hand to help if you need.

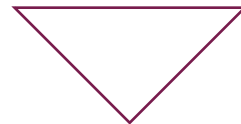

2

Turn over the cut out square so that the white side is facing up.

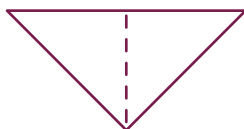

3

Bring the top corner to the bottom corner and fold the paper in half.

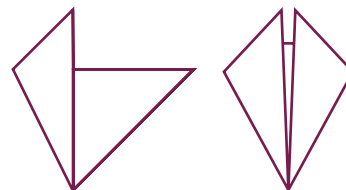

4

Fold the left corner to right corner and then unfold. There should now be a line in the middle.

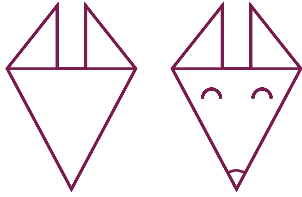

5

Fold the left and right triangle edges towards the centre, but not all the way!

6

Turn your shape over and decorate
with your own fox face!

TOP TIP:

Try using the finished fox
as a bookmark!
