

Paper Bag Kite

You'll need:

☐ Paper lunch bags

☐ Yarn or strong twine/string

☐ Popsicle stick

☐ Scissors

☐ Streamers

☐ Tape

☐ Decorations: stickers, paint, markers, crayons, construction paper, washi tape

How to make them:

1 Decorate your bag with markers, stickers, tape, and anything else you like.

2 Cut about 28 inches of string and tie one end to the middle of a popsicle stick.

3 Make a small hole in the base of your bag and feed the other end of the string through the hole in the bag. Once the string is threaded, your popsicle stick should lay flat at the base of the bag.

4 Attach colorful streamers to the opening of your bag.

5 Ready, set, fly!
