

Canadian Hospital at Home Inaugural Conference

Detailed Program

Learning Objectives: By the end of the Canadian HAH Conference, participants will be able to:

1. Define Hospital at Home as a clinical entity
2. Describe how Hospital at Home contributes to the achievement of the quintuple aim
3. Explain why HAH is an important care model that needs to be recognized and adopted in Canada. This includes the policy and health economics implications for health system sustainability.
4. Describe how the model has been implemented and evolved in Canada
