## **6. Update on the HL7 International Anatomical Inventories and Person Characteristics Project**

Recommendation from the group is to add trans for trans (t4t) sexual orientation and pansexual sexual orientation to the concept requests. Rather than the term homosexual, consider updating the modelling to use less offensive terms such as androphyllic or androphyllic descriptions and to disambiguate male/female. There is presently lots of conversation in social and academic spaces around the use of these terms. Will take these away and analyze.

Cisman/woman gender identity discrimination also to be added.

Presentation will be posted to the Documents folder.

## **7. Discussion**
