

**BALLOT INSTRUCTIONS FOR THE
WITHDRAWAL OF HL7 CLINICAL
CONTEXT MANAGEMENT
SPECIFICATION (CCOW) VERSION 1.6
FOR THE MAY 2021 BALLOT CYCLE**

April 16, 2021

Dear Voter,

Health Level Seven (HL7) invites you to take part in a Comment-only level ballot to withdraw the following HL7 American National Standard (ANS):

**Withdrawal of HL7 Clinical Context Management Specification (CCOW) Version 1.6
(WITHDRAW_CCOW1.6_R1_O1_2021MAY)**

Per ANSI rules, any ANS subject to periodic maintenance shall be revised, reaffirmed or withdrawn five years (5) after its designation as an ANS. HL7 is conducting this ballot in accordance with the HL7 Essential Requirements (HL7 ER) section 03.04.01 (Reaffirmation of an HL7 American National Standard), to allow those parties with an interest in the ANS to record their position on the decision to reaffirm, revise or withdraw this ANS.

For the purposes of this ballot the question being asked is as follows:

Should the standard be withdrawn as an American National Standard, reaffirmed as an ANS, or subject to revision and brought to ballot as a new version?

Accordingly, voters should lodge their votes as follows:

- **Affirmative** – Indicates support of withdrawal of the ANS
- **Negative** – Indicates support of either reaffirming or revising the ANS. If you support either of these actions, indicate your reasons in the comments accompanying your negative vote.

For details on obtaining a copy of the ANS under review, please refer to the Balloting Procedures section further down in this announcement.

Ballot Document

Infrastructure and Messaging Work Group announces the ballot opening for the following item:

Withdrawal of HL7 Clinical Context Management Specification (CCOW) Version 1.6

Aimed at facilitating the integration of applications at the point of use, CCOW Context Management Specification is a standard for both internal applications programming and runtime environment infrastructure that complements Health Level Seven International's traditional emphasis on data interchange and enterprise workflow.

- This standard is being withdrawn since it is no longer under maintenance.
