

Canada Health Infoway

CA:eReC Working Group

Online meeting
April 9, 2025

Topics

Topic	Time (ET)
Summary of Changes in v1.1.0	15 mins
Next Steps with Balloting	15 mins

Summary of Changes Applied in v1.1.0-DFT-Ballot

Implementation Guide

- Using pan-Canadian Enterprise Template

FHIR Profiles

- HealthcareService can be a reference Task.owner, Communication.sender. MessageHeader.author has optional cardinality ([ER-48](#))
- ServiceRequest.identifier shall have a single official business identifier ([ER-75](#))
- Patient.identifier is an optional, must support element (aligning with CA Core+ modelling) ([ER-85](#))
- Task.output can use String and Code as allowable data-types ([ER-35](#))

Extensions

- Added ServiceProviderPreference extension to ServiceRequest to indicate preference for provider or location ([ER-43](#))
- Added ServiceRequesterDelegate extension to ServiceRequest to identify person or provider that is the delegate ([ER-49](#))
- Added back RoutingOptions and ReferralIdentifier extensions to MessageHeader and ServiceRequest ([ER-58](#))
- Added back PerformerIdentifier extension to ServiceRequest.performer ([ER-71](#))

Terminology

- Added MessageChangeReasonCode valueset to MessageHeader.reason to provide context on the trigger for 'notify-update' messages ([ER-44](#))
- Changed BindingStrength for ServiceRequest.category to preferred ([ER-56](#))

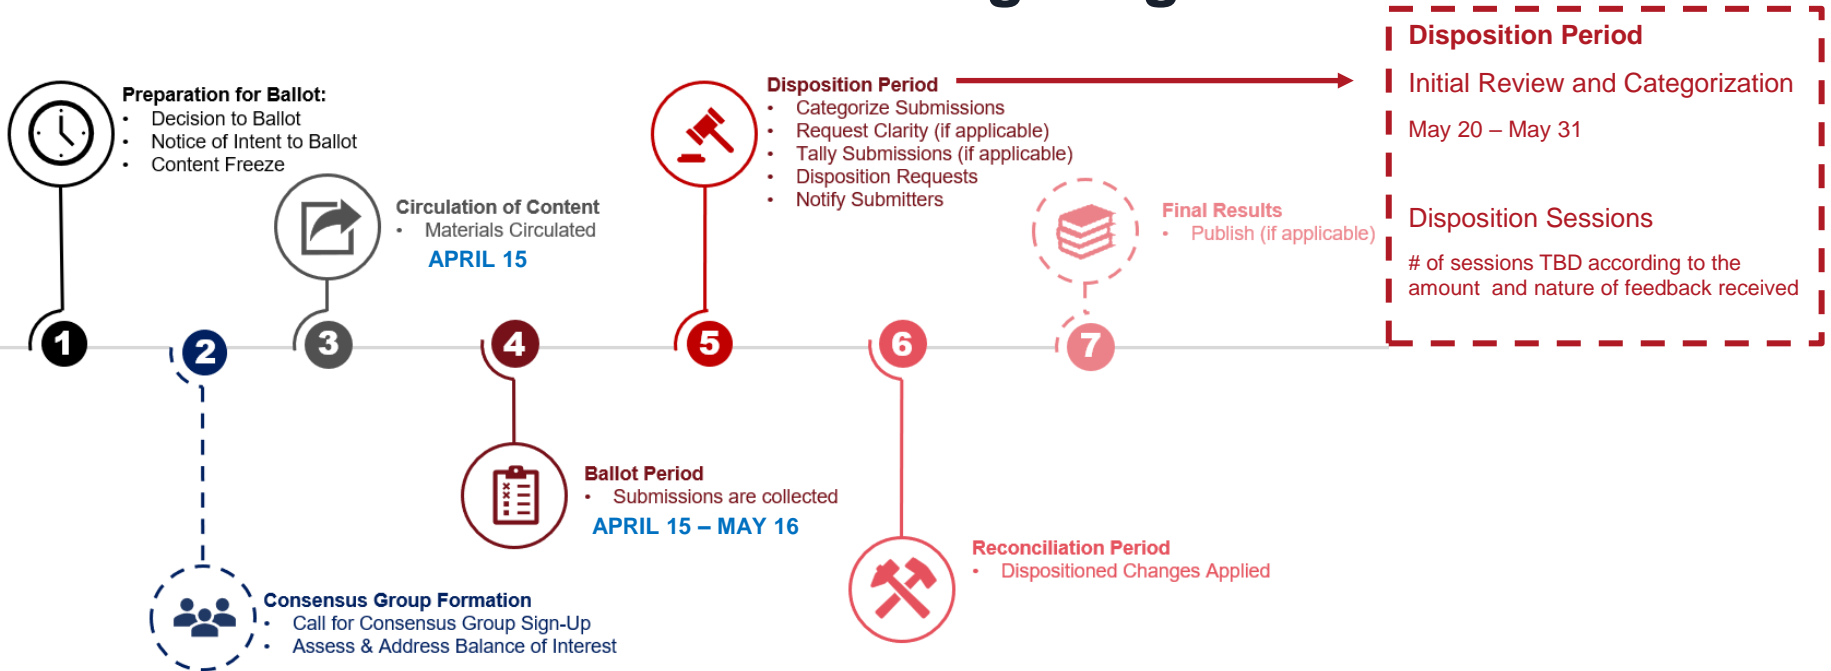

Technical Context

- Fixes to certain transactions in UC-4 Central Access and Triage (CAT), Select Alternate Flows Sequence Diagrams ([ER-51](#), [ER-52](#), [ER-54](#), [ER-63](#), [ER-64](#))
- Updated guidance for how Target Systems shall reference ServiceRequest received from Source systems ([ER-67](#))
- MessageTransaction Details: Indicating where focus is variable and appropriate changeReasonCode to use ([ER-84](#))

Examples

- Adding Examples for all messaging events

CA:eReC v1.1.0 DFT Balloting Stages

- Introduction to Balloting Webinar: [Link](#)

How to Provide Feedback

- Review the ballot specifications on Simplifier: [v1.1.0-draft-ballot](#)
- Document ballot comments in provided ballot submission spreadsheet and email standards@infoway-inforoute.ca
- Submissions will be categorized, grouped into blocks
- Working Group meets to review and disposition feedback
- Submission spreadsheet will be used to track changes that are persuasive and/or considered for future use
- Changes will be applied during reconciliation period to produce [v1.1.0-draft](#)
