Hello Touch of Gold Car Washing LLC,

Thank you for your recent submission of the Google Pay API integration for: com.amereen.whizz

To ensure a seamless experience and maintain consistency with our brand guidelines we kindly ask you to review and update the **Google Pay Mark** used in your integration. Specifically, please make sure you are using our approved [Android Google Pay Mark](#) or [Web Google Pay Mark](#).

We understand that these adjustments might require some additional work, and we appreciate your understanding and cooperation in this matter.

Once you've made the necessary updates, please resubmit your integration through the [Google Pay & Wallet Console](#) for another evaluation. If you're using a dedicated plugin or hosted checkout solution from your Payment Service Provider and cannot implement these changes, don't hesitate to reach out to us by replying to this email.

If you have any questions or need further clarification on the feedback, please feel free to reach out. Thank you for your attention to these details and for working with us.

Sincerely,
The Google Pay API support team

Hi,
Thank you for the detailed review response. But in this case, we're using stripe as the payment service provider. The app is being built in flutterflow, and the default stripe integration for google pay is being used. Can you please guide on next steps?
Thanks & looking forward to hearing from you soon!

Hi,

Thanks for your mail.

Please reachout to your PSP for updating [Google Pay mark](#) as per brand guidelines.

Also, Please always use an uppercase "G" and an uppercase "P" followed by lowercase letters.

Please make or provide the appropriate updates, and re-submit your integration again through Google Pay & Wallet Console.

Best,

Shaik Subhani
