

# Meeting Notes

## Public Health Surveillance (PHS) Community

December 7, 2023, 2:00 – 3:00 ET

Item	Summary	Action Item
<b><i>PHAC – National Vaccine Catalogue</i></b>	<p>In Phase 3, working on Minimum Viable Product (MVP) for March 2024:</p> <p>Two sources of data for MVP: H. Canada (Lot, expiry, DIN) and Infoway (7 vaccine subsets); it will include the vaccines used outside of Canada and special access vaccines.</p> <p>Will use the same data sources as the CVC (e.g. GTIN from GS1 will be added after March), but no data from CVC</p> <p>Via API, Excel workbook, and Browser</p> <p>Target is to release updates weekly</p> <p>Mapping to CVX (U.S. CDC vaccine codes) for consideration post MVP</p>	For information
<b><i>RFCs update</i></b>	<p>Immunization Dashboard - update</p> <p>Is there a need for synonyms or synonym subsets?: Revisit this after the NVC releases the MVP – see whether the Preferred Terms and / or Fully Specified Names are being used</p> <p>Infoway has planned updates for the terminology server which will make it easier to access all content</p>	<p>Will add Final Concept ID to view of Imms Dashboard</p> <p>Members can look at the current content available on Infoway’s Gateway – add a link to meeting notes <b>SEE BELOW</b></p> <p>Bring back item for April’s PHSC call</p>

# Meeting Notes
