

Canada Health Infoway

Sex and Gender Working Group

Monthly (4th Tuesday) Zoom Meeting
January 24, 2023 at 9am PT / 12pm ET

Karen Courtney RN, PhD, University of Victoria
Francis Lau PhD, CTSS, University of Victoria
Kelly Davison RN, CTSS, University of Victoria

Agenda

1. Welcome and Land Acknowledgement
2. Ground rules for respectful dialogue
3. Purpose of Infoway Sex and Gender Working Group
4. Karen Luyendyk – *Use Cases Development*
5. HL7 Gender Harmony Project 2.0 Ballot Update
6. Schedule Review
7. Adjournment

Ground Rules for Respectful Dialogue

- Express disagreement with ideas not personalities
- Share airtime
- Stay on topic - connect to what others have said
- Understand & learn from each other
- We are all equal. Leave rank at the door
- Listen respectfully especially when you disagree. Acknowledge you have heard the others
- Look for common ground
- Identify & test assumptions

Welcome and Acknowledgement

We respectfully acknowledge that the land on which we are hosting this meeting – the land that sustains us – includes the ancestral territories of many First Peoples. Canada Health Infoway recognizes the colonial injustices experienced by Indigenous Peoples, many of which continue today and continue to affect their health and well-being. I invite all attendees to reflect on the privilege they have of living, working and playing in the territory from which you are joining this call, and invite you to commit yourself with me to having an open heart and an open mind; to forging culturally safe spaces for and relationships with Indigenous Peoples including Two-Spirit people in Canadian health care; and in making a meaningful contribution to reconciliation through our shared work.

Purpose

The Sex and Gender Working Group meets on the fourth Tuesday of each month at 9am PT/12pm ET. Our next meeting is February 28, 2023.

The purpose of this working group is to take action on modernizing GSSO information practices by:

- Examining the expanded definition, collection, use and sharing of sex-gender info in EHRs
- Discussing current research, practices, gaps and challenges
- Operationalizing the [Action Plan](#)

Action Plan

1. ***Vision and Goal*** – “Envisage an equity- and SGM-oriented health system that embraces diversity and aligns with other SGM-related initiatives.”
2. ***Engagement and Partnerships*** – “Engage organizations and communities across Canada to modernize GSSO information practices in EHRs that support equity-oriented health care and meet SGM needs.”
3. ***GSSO Terminology Workstream*** – “Establish a precise, inclusive, appropriate, evolving and multi-level GSSO terminology...”
4. ***Enabling EHR Systems*** – “Adopt a common set of EHR functions...”
5. ***GSSO Policy/Practice Guidance*** – “Integrate and tailor GSSO data collection...”
6. ***Education and Training*** – “Educate and train health care staff to enhance their capacity to provide culturally competent and safe care...”
7. ***Central Hub for Coordination*** – “Establish a central hub to liaise, guide, assist and monitor the progress of this action plan over time.”

Schedule and Topics Review - 2023

Discussion / Questions?

Alternative to SFCU

Change Name and results (code system change concepts)

SEX PARAMETER FOR CLINICAL USE (SPCU) (REQUIRED BINDING, SELECT ONE)

A summary parameter that provides guidance on how a receiver should apply settings or reference ranges that are derived from observable information such as an organ inventory, recent hormone lab tests, genetic testing, menstrual status, obstetric history, etc.

- Apply female-typical setting or reference range; Code: Female-typical
 - Synonym: Female sex for clinical use
 - Available data indicates that diagnostics, analytics, and treatments should consider best practices associated with female reference populations.
- Apply male-typical setting or reference range; Code: Male-typical
 - Synonym: Male sex for clinical use
 - Available data indicates that diagnostics, analytics, and treatments should consider best practices associated with male reference populations.
- Apply specified setting or reference range; Code: Specified
 - Available data indicates that diagnostics, analytics, and treatment best practices may be undefined or not aligned with sex-derived reference populations. Additional information (usually, but not always, in the form of comments and/or observations) may be available.
- Unknown clinical parameter setting or reference range; Code: UNK (Null Flavor)
 - No pertinent data available.

Comments?
