Terminology

Comments & Events

janet routliffe, Project Manager, Architecture Program Office

Hello,

Prior to the Feb 28th meeting, please review the terminology value sets. The focus of the meeting will be to confirm the current value sets are appropriate. See link:

Hello,

Thanks to everyone who attended today's terminology session. Attached is an overview of 'how to get started' on your review of the value sets.

If you have any follow up questions regarding this request - Fariba would be happy to assist.

Is there a registered system URI for CHRIS?

Mar 06, 2019 at 5:18 PM · Notified 2 people

Smita Kachroo

Hi Tim,

We would like to propose below URI for CHRIS as an assigning authority for referral identifiers. Please let me know your thoughts.

<http://ehealthontario.ca/fhir/NamingSystem/id-referral-chris>

Thanks,

Smita

Looks good to me. CHRIS also has a CHRIS # for the patient, would that be relevant to have a registered identifier for as well?

I think that there may be scenarios where an identifier needs to be communicated, but no system has been registered yet.

I propose that call this out specifically in the document for implementers. Here is an example of a TWO serviceRequest identifiers being sent through, one with a registered system and one without.

```
"identifier":[
  {
    "type":{
      "text":"CHRIS ID"
    },
    "system": "http://ehealthontario.ca/fhir/NamingSystem/id-referral-chris",
    "value":"7654321"
  }
]
```

```
"type":{  
  "text":"ApplicationX ID"  
},  
"value":"9988313"  
}  
],  
Mar 07, 2019 at 2:56 PM · Notified 3 people
```

**Smita Kachroo**

makes sense to me

Mar 07, 2019 at 3:10 PM · Notified 3 people

Does 'CHRIS # for patient' means a unique number assigned to Patient. We do have URIs for CHRIS client ids as an alternate IDs for PCR (see e.g. below). Are you looking for something like below?

HSSO CHRIS Client ID: <http://ehealthontario.ca/fhir/NamingSystem/id-hsso-client-alternate>

Erie St Clair LHIN Client ID: <http://ehealthontario.ca/fhir/NamingSystem/id-erie-st-clair-lhin01-client-alternate>
