Integrating the Healthcare Enterprise (IHE) Canada

Advancing Interoperability for the Public Good in the US, Leveraging the IHE Proven Standards Adoption Process

Agenda

- 2025 IHE NA Connectathon
- Webinar Schedule for 2024/2025
- Introductions for “Advancing Interoperability for the Public Good in the US, Leveraging the IHE Proven Standards Adoption Process”
- Q & A Session

Canada Health Infoway

IHE NORTH AMERICA CONNECTATHON WEEK 2025

For the first time, one of the largest health IT interoperability technical testing events is coming to Canada.

Feb. 3-7 | Toronto

LEARN MORE

IHE Canada 2024/2025 Webinar Series

- Nov 21 – What goes on in an IHE Connectathon/Projectathon/Plugathon?
- Feb 13 – How can IHE help with creating standards/specifications that can be utilized for jurisdictional or nationwide RFPs? and IHE NA Connectathon Update.
- Apr 17 – Looking for Interoperability, How to read and use an IHE Technical Profiles or Supplements?
- June 19 – HL7 FHIR and IHE Technical Supplements, a match made to enable interoperable workflows!
- <https://infocentral.infoway-inforoute.ca/en/collaboration/communities-2/ihe>

Introductions

The background features a white field on the left and a dark blue field on the right, separated by a curved white boundary. A red triangular shape points from the bottom right towards the center.

Our Speakers

LAURA BRIGHT

DIRECTOR - LJB CONSULTING

DIDI DAVIS

VP, INFORMATICS, CONFORMANCE AND
INTEROPERABILITY
THE SEQUOIA PROJECT

Our Speakers

LAURA BRIGHT

Laura is an experienced leader and architect with over 25 years' experience in healthcare, focused on the healthcare interoperability space. She has been deeply involved in IHE since 2007 and held a number of different leadership and hands on roles across many organizations in both the public and private sectors in Canada, the United States, and Internationally, having played key Architecture roles with eHealth Ontario, Bell Canada, University Health Network, the Ministry of Health for the Kingdom of Saudi Arabia, and the U.S Department of Health and Human Services. Currently Laura is engaged with The Sequoia Project, working with the Recognized Coordinating Entity (RCE) conformance testing for TEFCA and the Data Usability workgroup, as well as the Immunization Gateway project with Audacious Inquiry for the Centers for Disease Control in the US.

She was co-chair of the Patient Care Coordination Technical and Planning committees for 4 years, and co-chair of the Quality, Research and Public Health Technical and Planning committees for another 6 years. Currently, Laura sits on the IHE International Board as Member at Large

Our Speakers

DIDI DAVIS

Mrs. Davis has >30 years' experience in the healthcare industry with emphasis on conformance testing, implementation, development, and management of information technology solutions and healthcare workflow requirements. She serves as the VP, Informatics, Conformance and Interoperability for the Sequoia Project that is a 501©3 not for profit organization based in Washington, DC. Her expertise includes connecting people, processes and technology to improve health care. She is responsible for driving the interoperability among health IT systems participating within the Carequality framework, the eHealth Exchange network (formerly known as the Nationwide Health Information Network - NwHIN and for the RSNA Image Share Validation programs in partnership with the RSNA, managed by Sequoia. She oversees the operations of 8 testing programs for Sequoia, including the Recognized Coordinating Entity (RCE) conformance testing for TEFCA. She leads a group of experts and stakeholders across the US to develop specific and pragmatic implementation guidance on improving data quality of the clinical content exchanged among networks and communities in the Data Usability workgroup under the Sequoia Interoperability Matters Forums. She also acts as the subject matter expert guiding the deployment efforts for the Data Usability Taking Root Movement and for the Image Exchange Use Case Implementation for Carequality.

Mrs. Davis is nationally known as a subject matter expert for healthcare standards, interoperability design and strategy for all healthcare stakeholders including consumers, hospitals, physician practices, public health, health information exchanges and vendors deploying health information technology to improve patient safety and quality of care.
